

Leaf Casting Garden Sculpture

Learn to make a beautiful sculpture using leaves collected from your garden. By forming the leaves shapes and contours, Lisa Terry will teach how to cast amazing concrete sculptures suitable for decorating your home or garden.

A member of the Grafton Garden Club, Lisa has taught casting through Terrapin Station Creations. Her work has been displayed and sold at the Bella Luce Cafe in Whitinsville. She has also taught hypertufa (a faux stone of concrete, vermiculite and peat) workshops with the West Boylston Arts Foundation.

Date: Saturday, July 23, 2011

Time: 9:00 am – 1:00 pm

Location: Whitetail Greenery, 294 Prospect St., West Boylston

Cost: \$40, includes all materials, though participants may bring leaves from their garden to cast if they wish.

Sponsored by West Boylston Arts Foundation, Inc. in support of school arts education. Pre-registration is required. Email arts@wbaf.org, or call Mark Baldi at 508-835-6489 to register.
