Dear Mr. Kane:

I have had the joy of teaching at West Boylston Middle/High School for twelve years, and I continue to be so impressed with the support of the parents for the schools in their community. Five years ago the West Boylston Arts Foundation (WBAF) was begun to assist the arts and arts education both in the schools and in the West Boylston community. These committed parents have done so much to provide continued music education at the elementary level; however, this year along with the help of an anonymous donor, they have provided significant new stage lighting for the middle/high school auditorium. How grateful we are for their generosity. One of the members of the WBAF, Mr. Don DeMarsh, provided innumerable hours of volunteer time to assist with the installation of the new lights as well. The students and I cannot adequately express how delighted we are for the WBAF's generous donation. Mr. Mark Baldi, president, and his incredibly hard-working board are to be commended for doing so much for the West Boylston community. We thank them so much for "lighting up our lives!"

Carolyn J. Somma

West Boylston Middle/High School
